

# YOUSEF ALDEEB

SOFTWARE ENGINEER | Web Development | Full Stack | Asp.Net Core MVC | VistA | MUMPS

+962795837513 ✉yousef.aldeeb11@gmail.com 📍Jordan-Amman 🔗www.linkedin.com/in/yousef-al-deeb 🐙https://github.com/yousefweb

## ABOUT

- Software engineering graduate from Jordan University of Science and Technology, proficient in Asp.net MVC (C#), and good in Node.js, and Java.
- Strong foundation in programming languages and object-oriented programming concepts.
- Demonstrated skills in rapid learning, effective team collaboration, and thriving in high-pressure environments With excellent time management.
- Committed to success, passionate about programming, and dedicated to continuous improvement for delivering value through impactful work.

View My Portfolio 

## EDUCATION

Bachelor Of Software Engineering SEP 2019 - OCT 2023

Jordan University of Science and technology.

Grade: 3.25 (V.Good)

## EXPERIENCES

Electronic Health Solutions May 2024 - Present

- Position: Software Development Officer
- Over the first seven months, We'll delve into Vista technology architecture, emphasizing MUMPS language (M). We'll focus on mastering key Vista modules, ensuring proficiency in this specialized environment for healthcare technology.

Orange coding school (Internship) OCT 2023 - JAN 2024

- Project Management & Collaboration:
- Utilized Trello, Discord, and GitHub for efficient project coordination and version control.
- Design & Wireframing:
- Proficient in Miro for clear Wireframes, applying design principles to enhance Web interfaces.
- Full-Stack Web Development:
- Executed three projects, demonstrating expertise in HTML, CSS, JavaScript, and ASP.NET Core MVC.
- Developed portfolio and personal Websites, as well as an Attendance Tracker System.
- Project With specialized in e-commerce With an ASP.NET Core MVC project focused on phone sales.

Coderz for software and training OCT 2022 - DEC 2022

- Skilled in both front-end (HTML5, CSS3, Bootstrap, JavaScript) and back-end (C#, .NET Framework) technologies.
- Completed a 60-hour ASP.NET Core MVC training program, covering OOP, validation, data annotation, Entity Framework Core, SQL, and API development.

## COURSES

- **The Hope International Company** AUG 2023 - SEP 2023  
I trained in Back-end Node.js environment (40 HOURS) I learnt introduction to Node.js and basic of js and developing applications with Node.js  
also building real-world applications with Node.js.
- **Advanced Computer Skills** MAR 2021 - APR 2021  
ms office excel word powerpoint
- **Cisco Networking Academy** NOV 2020 - DEC 2020  
(Entrepreneurship)
- **British Council**  
Secondary elementary level and i have obtained 3 certificates at this level.

ENGLISH

# SKILLS

## Technical Skills:

- Asp.net(c#).
- Software and web development.
- MVC Pattern.
- Agile Methodologies (Scrum).
- Project Management Tools (Trello)
- (MS SQL) : firstcode
- Miro tool (Link: )
- Java Script
- Html/Css(Bootstrap)
- Postman rest API in nodeJs
- Version Control (GitHub) (Link : )

## Soft Skills:

- Work Under Pressure
- Team Working
- Time Management
- Communication Skills

# PROJECTS

## > Health Provisor (Medical Consultation )

"Health Provisor" harnesses ASP.NET Core MVC for seamless frontend-backend integration (Jan 2024 - may 2024), powered by AJAX and MSSQL for responsive data management. Bootstrap crafts a sleek interface, while dependency injection optimizes code maintenance. With designated areas and roles for doctors, patients, and administrators, efficient management is ensured ,reinforcin commitment to impactful healthcare solutions in medical consultation.

## > Mobile-Optimized eCommerce Hub (5Dot)

Associated with the Orange Coding School

- ASP.NET Core MVC-powered platform for mobiles, ensuring seamless category (Dec 2033- Jan 2024) management, secure payments, and personalized experiences, blending innovation with swift performance and robust security

## > Node.js Project:

Associated with the Hope International Company

- Developed the Product Purchase System (PPS) in Node.js (Aug 2023 - Sep 2023) for Hope International Company. Enhanced procurement efficiency, streamlined supply processes, and reduced costs for effective management of product and material acquisitions.

## > Graduation Project:

Associated with Jordan University of Science and Technology

- Developed Tabeebk.com, an ASP.NET MVC web application for clinic bookings (Feb 2023 - Jun 2023) involving patients, doctors, and site owners at Jordan University of Science and Technology.
